Summary

Frontend Developer with 2.8 years of experience building secure, scalable React applications. Proficient in React.js, TypeScript, Node.js, and GraphQL. Hands-on experience with secure authentication (Keycloak/OAuth 2.0), AWS cloud services, and CI/CD using Docker and Jenkins. Passionate about building intuitive UI for cybersecurity and real-time data platforms.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Java, HTML5, CSS3, Data Structures & Algorithms (DSA)

Frameworks: Next.js, Node.js, Express.js, Tailwind CSS, Bootstrap

Libraries: React.js, Redux, Material-UI, React Router, Angular, GraphQL, Vue.JS

Testing: Jest, React Testing Library

Tools & Platforms: Git, GitHub, Docker, Podman, Jenkins, Keycloak, MS Office, MS Excel, Linux, Figma, AWS(IAM, EC2, S3, Lambda)

Soft Skills: Communication, Time Management, Problem-Solving, Leadership, Punctuality

Professional Experience

Rayvector Technologies - (Software Developer)

July 2025 – Present
Bengaluru

Poleshift TRP (Aug 2025 - Present)

- Developed the frontend from scratch using **Next.js**, **TypeScript**, **Redux**, and **Tailwind CSS**.
- Created scalable modules for merchant onboarding and operations management.
- Integrated secure authentication using Keycloak with OAuth 2.0 protocols. Validated user inputs to prevent XSS and CSRF vulnerabilities.
- Collaborated with cross-functional teams (design/backend) under Agile methodology to deliver robust UI.

Arise (July 2025 - Nov 2025)

- Built dynamic, reusable UI components using **React.js** and **Redux** for state management.
- Applied **Tailwind CSS** for responsive and clean interface design.
- Ensured maintainable, high-performance code following industry best practices.
- Worked closely with team members to meet feature and sprint delivery timelines.

Neriva AOI (Dec 2025 - Present)

- Worked on the frontend using **Next.js**, **Redux** for state management, **TypeScript**, and **Tailwind CSS**.
- Developed and implemented the Home page, and two sections: Tourism in India and Facts of India.
- Ensured responsive, accessible UI matching design expectations.
- Collaborated with other teams to maintain consistent structure across components.

Keen & Able Computers Pvt Ltd - (Frontend Developer)

Oct 2023 – Feb 2025
Noida

Fino NACH (Oct 2024 - Jan 2025)

- Developed the frontend from scratch using **Next.js**, **TypeScript**, **Redux**, and **Tailwind CSS**.
- Created scalable modules for merchant onboarding and operations management.
- Integrated secure authentication using Keycloak with OAuth 2.0 protocols. Validated user inputs to prevent XSS and CSRF vulnerabilities.
- Collaborated with cross-functional teams (design/backend) under Agile methodology to deliver robust UI.

Fino MTA (April 2023 - Oct 2024)

- Built dynamic, reusable UI components using **React.js** and **Redux** for state management.
- Applied **Tailwind CSS** for responsive and clean interface design.
- Ensured maintainable, high-performance code following industry best practices.
- Worked closely with team members to meet feature and sprint delivery timelines.

NIC MyGov Portal (Oct 2023 - April 2024)

- Worked on the frontend using **Next.js**, **Redux** for state management, **TypeScript**, and **Tailwind CSS**.
- Developed and implemented the Home page, and two sections: Tourism in India and Facts of India.
- Ensured responsive, accessible UI matching design expectations.
- Collaborated with other teams to maintain consistent structure across components.

Education

M S Ramaiah University of Applied Sciences
Bachelor of Technology

Bangalore, Karnataka, India
Aug 2018 – June 2022

Infant Jesus School

Patna, Bihar, India

Intermediate

Infant Jesus School
10th

April 2016 – April 2017

Patna, Bihar, India
April 2014 – April 2015
